UPDATES

ILPMP Appoints New Advisory Committee Member

Dr. Brooke Schweitzer is an accomplished healthcare leader with expertise in APP leadership and workforce innovation. As the inaugural Chief Advanced Practice Officer at UChicago Medicine, she oversees more than 600 APPs and leads the strategic workforce planning and operations for many teams in both the inpatient and ambulatory settings system wide.

We are excited to welcome her to the ILPMP Advisory Committee and look forward to the valuable insights and expertise she will bring to our work.

ILPMPnow Integration Recent Downtime

The ILPMP team has been experiencing sporadic and unexpected downtimes with some of our integrations. If you're experiencing downtime on the IL PMPnow integration, please contact both our technical partner, LogiCoy, at PMPnow@logicoy.com and the ILPMP team at DHS.PMP@illinois.gov.

In the email, include the name of your EHR/Pharmacy Management System, so our teams can best assist you.

Q: Who do I contact to report fraudulent activity?

A: Contact your local law enforcement and the DEA to report fraudulent activity.

You may continue to monitor prescriptions associated with your DEA number by utilizing the MyPMP feature, located on the top navigation bar, on our website at www.ilpmp.org.

ILPMP Attends Illinois Primary Health Care Association Leadership Conference

The ILPMP attended the Illinois Primacy Health Care Association (IPHCA) Leadership Conference on September 23-24, 2026, in Peoria, Illinois. The conference brought together healthcare leaders and professionals from across the state to share ideas, discuss challenges, and explore opportunities to strengthen healthcare outcomes. Pictured below is Illinois PMPnow Coordinator, Jackie DeNardo.

PHARMACY COMPLIANCE

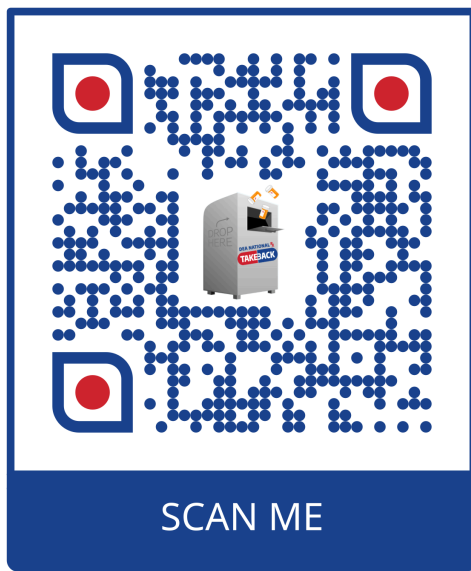

IMPORTANT REMINDERS FOR DATA SUBMISSIONS TO ILPMP

Submission Testing (UAT) to Production Reminder:

Pharmacies, data submitters or dispensing practitioners that tested submissions on the RxSubmit Testing (UAT) website should ensure all sFTP credentials have been updated to the RxSubmit live production credentials once finished with testing. Credentials can be found [here](#) under section 10.

ASAP 5.0 Reporting Reminder:

Pharmacies and dispensing practitioners should be reporting dispensations of reportable drugs in ASAP 5.0 format to [RxSubmit](#). To understand the Illinois specific reporting requirements, please see the [2025 Data Submitters Guide](#).

EDUCATIONAL RESOURCES

Click play below to watch the Virtual Ask The Expert Series, Personalized Medication in Pain/Substance Use Disorder. Previously recorded September 17, 2026.

A banner for the 'VIRTUAL ASK THE EXPERT SERIES'. The main title is 'VIRTUAL ASK THE EXPERT SERIES' in blue serif font. Below it is a blue rectangular box with white text: 'PERSONALIZED MEDICINE IN PAIN / SUD', 'SEPTEMBER 17, 2026 12:00 PM CST', and 'PRESENTED BY: JAKE NICHOLS, PHARM.D. MBA, CHIEF MEDICAL OFFICER, WHITE BIOMEDICAL'. A large white play button icon is centered over the blue box. Below the blue box, on the left, is the 'ILPMP' logo (Illinois Prescription Monitoring Program) with the text 'SPONSORED BY'. In the center, it says 'MODERATED BY: CHRIS HERNDON, PHARM.D. PROFESSOR, SIUE'. On the right, there is a 'REGISTER' button with a QR code below it. At the bottom, a small note reads: 'NOTE: THIS SESSION IS NOT APPROVED FOR CONTINUING EDUCATION'.

Data Quality in Prescription Monitoring Programs

Target Audience: Pharmacists, Pharmacy Technicians, Dispensing Practitioners, and any other Data Submitters

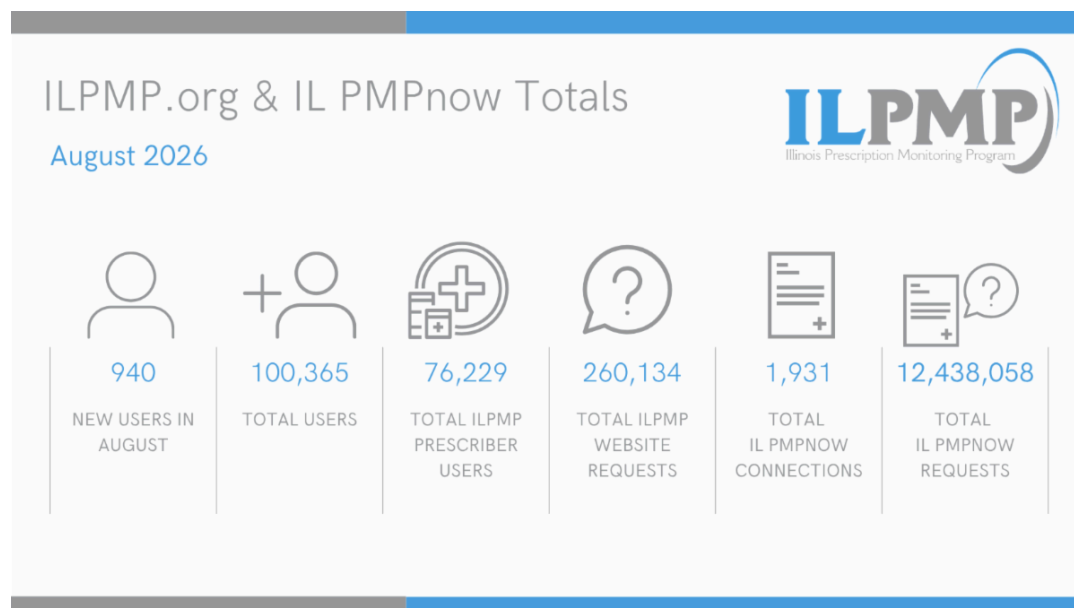

Cost: **FREE**

Free ACPE accredited educational opportunity providing 1 hour of continuing education for pharmacists and pharmacy technicians. This program, developed in partnership with NASCSA and 12 prescription monitoring program (PMP) administrators, analyzes the importance and value of complete, accurate data reported by dispensers to PMPs and assesses the impact of intentional or non-intentional data entry errors and data omissions on patient safety. It also discusses the downstream impacts of pharmacy-reported PMP data on clinical decision-making processes and helps pharmacy staff identify and implement changes that can be made in their practice setting to improve PMP data integrity. **If you received credit for this CE prior to 10/20/25, this CE opportunity is available to you again to participate in and receive credit.**

The Illinois Prescription Monitoring Program (ILPMP) is an electronic database that collects, tracks, and stores reported dispensing data for Schedule II–V controlled substances, except for testosterone. In addition, the ILPMP requires the reporting of select drugs of interest and provides access to other relevant health information. The Illinois Department of Human Services oversees the ILPMP, authorized by the Illinois Controlled Substances Act (720 ILCS 570/316). The ILPMP adheres to HIPAA and all access, disclosure, and confidentiality provisions of Illinois Law.
